CPH CORE VALUES, DEI, and PROFESSIONAL ETHICS & RESPONSIBILITIES

Since its creation, CPH has had the following core values: Excellence, Learning, Community, Diversity, Integrity, Respect, and Responsibility. These values overlap heavily with the term, “DEI” (Diversity, Equity, and Inclusion), as well as other areas of professional ethics and responsibility. As stated in <https://www.public-health.uiowa.edu/strategic-plan-mission-vision-core-values/>, “All activities within the CPH are motivated by a commitment to social equity and fairness, a spirit of compassion for all persons, and a desire to apply the tools of scientific knowledge to pressing societal health concerns. The College strives to improve the conditions in which everyone lives and thereby contribute to the formation of a just society.”

To encourage individual growth and to facilitate discussion of core values, faculty are invited (but not required) to provide a summary of DEI-related activities and goals. Examples of questions typically addressed in such a statement include the following:

1. What professional development activities related to DEI have you participated in? Examples may include: Attending a campus BUILD workshop; participating in a session on DEI issues as part of a scientific conference or professional meeting; viewing a webinar on DEI issues from an academic or non-profit institution; engaging in civic organizations devoted to DEI issues, such as the city’s Human Rights Commission, etc.
2. Describe how you have integrated DEI into your research, teaching, service and professional activities, including any successes or challenges you'd like to discuss.
3. What are your goals for DEI in the upcoming year and what support or resources might you need to accomplish these?
4. Are there issues related to DEI, CPH Core Values, and Professional Ethics and Responsibilities you would like to discuss?
